

## MAINTENANCE MILLWRIGHT

Coast Tsimshian Fish Plant - Lax Kw'alaams, BC

Coast Tsimshian Fish Plant is looking for a Maintenance Millwright to maintain a fish plant in a small community in Northern British Columbia. We are a fish processing/freezing facility located in Lax Kw'alaams, British Columbia. The normal operation is a minimum 40-hour work week but can be 7 days a week during peak seasons. The successful applicant will have to work with minimal supervision and be responsible to keep the plant operating with minimal downtime. You will be able to weld aluminum and steel, setup and maintain processing lines and fish unloading system. The company will supply housing for the successful applicant.
